

PUBLIC LEDGER

SEVENTH YEAR.

MAYSVILLE, KY., THURSDAY, JANUARY 27, 1898.

ONE CENT.

Purely Business!

The columns of a newspaper represent the public interest, and are to be used for advertising "notices" free of any more than a nominal charge. The paper is a large one, and contains a large amount of news and information. It is a good paper, and its stock in trade, and advertising should be paid for in part in what part of the paper they appear.

We'll Break the Rule!

January, as a rule, is a dull month for Clothing people. We believe much of the dullness is the fault of the merchants. They labor under the impression that nearly everyone has laid in their winter supplies and fear to expend money for printer's ink. We will break the rule and see what virtue there is in printer's ink and offer good Clothing at 50 cents less than the day before. The first thing you want to do is to read this ad; the next is to come and see the goods advertised. What will follow will be a rule-breaker.

On Thursday morning, January 13th, and until the end of the month, all our fine Beaver Overcoats—garments that cost for \$10, \$12 and \$15—will go at \$8 75.

Our finest Beaver, Asker and Cover Overcoats that sold at \$18, \$20 and \$25 will go at \$15.

Our Cheviot and Cassimere Suits that sold at \$10, \$12 and \$13 50 will go at \$8 75.

Our finest Cheviot, Worsted and Cassimere Suits that sold at \$15, \$18 and \$20 will go at \$12.

We need not comment on qualities. Everybody knows what class of Clothing we sell.

\$4 90! \$4 90!

This represents the selling price of 260 all-wool Cassimere and Cheviot Suits that we recently closed out from C. Meyers & Bro., Philadelphia. Not a Suit in the lot that isn't worth \$9. They come in every size and all colors. We believe them the most modest garments we are ever able to offer you. Thursday morning the entire line will be in our show-window. Look for the \$4 90 Suit. It's a bummer.

For extra bargains in fine Shoes come to us. We want to close out our heavy Shoes to make room for our spring stock.

Spot Cash will be the watchword during this sale.

PROPRIETORS BEE HIVE.

Life's of rich men all remind us
That when we the bucket kick
Moses will remain behind us
That will make the public sick.

There are claimants who will say that
We are at home at this time
Sure to lose and journey hence.

There are widows calmly waiting
For the final breath we draw;

Then in troupe they'll come a skating
With the public law.

There are people who demand us
When at last we howly lie.

There are many who will claim us
For their daddies, when we die.

And the children that we'll idolize.
There is little room to doubt,

Will include in fun unbodied,
And the public sick.

Even though I've tried to win a
Glorious future in the sky,

I suppose they'll say I've been a
Naughty devil when I die!

SPANISH SHIPS,

Visiting United States Ports,
Will Be Made Welcome.

President McKinley and Dole Make
Calls Upon Each Other.

The Diplomatic Corps Entertained by the
President and Mrs. McKinley—Secretary
and Mrs. Sherman Attended—
Postal Savings Bank Bill.

WASHINGTON, Jan. 27.—Secretary Long said Wednesday that he had received no information from any Spanish minister or from any other source that Spanish men-of-war have been ordered to visit United States ports. They were ordered to proceed to come and go as they pleased, he said, and as far as he was concerned he had no objection to have them come.

Spanish warships have frequently visited the United States since the intervention in Cuba three years ago without having excited the least unfriendly comment and there was no reason why any significance should be attached to their coming again whenever they felt disposed to do so.

SENATOR MASON.

The President and Mrs. McKinley entertained the diplomatic corps Wednesday night at the first state dinner of the year. Senator and Mrs. Sherman assisted in receiving the guests in the east room. The decorations of the state dining room consisted largely of roses and orchids. After the dinner the guests were seated at the head of the table. The mantels were banked with cut flowers, roses, hyacinths and carnations, while a profusion of sunbeams was draped above the table and swayed by the wind. The windows were filled with palms and rubber plants.

The report of the majority of the committee on post offices and post roads in the Corbin case was presented to the senate Wednesday by Senator Caffery. The committee recommend that Mr. Corbett be not given a seat in the Senate. The committee concurred in the conclusion but gives a separate opinion. He takes the position that the decision in the Mantle case controls in this. Mr. Hoar presented his report in support of sustaining Mr. Corbett's claim to a seat.

President Dole of Hawaii, arrived here at 2:30 o'clock Wednesday afternoon and in behalf of the government was welcomed to the national capital by Senator Sherman and Presidential Secretary Ade. The presidential party was belated by storms along the way and it was three hours after the scheduled time that the train swung into the Baltimore station. A crowd of several hundred had assembled on north Capitol street and three platoons of mounted policemen were on hand who acted as escort.

Mr. St. John offered a seat to Mrs. Dole and secured her to President McKinley's carriage. The platoons of officers wheeled about the spirited "bays" of the white house carriage and the "purple gall" and the party proceeded to the residence, where the Hawaiian executive will be the nation's guest. In the second carriage were Minister Hatch, of Hawaii, Assistant Secretary Crider, and Mr. Dole's private secretary.

Following this was the carriage of Assistant Secretary Ade and Dr. Day, the physician of the Dole. The fourth carriage contained Maj. Hartland, representing the army, and Col. George Phelps the navy. There was no military display, democratic simplicity being observed at Mr. Dole's request.

Washington, Jan. 27.—President McKinley's call on President Dole Wednesday afternoon was entirely formal and did not last longer than 15 minutes. He was accompanied by Mr. Porter and Col. Bingham, and was met by Mr. St. John, Secretary Crider, and Mr. Hatch, the Hawaiian minister, who introduced them to President Dole, Mrs. Dole and the other members of the party. After a mutual exchange of cordial greetings, McKinley returned to the white house.

At 4:15 the Dole returned the visit of President McKinley. He drove over to the white house in a magnificently appointed carriage, a companion of Minister Hatch and Assistant Secretary Crider. His private secretary, Maj. Jauken, with Maj. Hartland and Lieutenant Commanders Phelps and Day, followed in the carriage. At that time the white house visitor was met by Col. Bingham, and the party was led at once by him to the elevator, whence they were soon transferred to the carriage on the second floor. The President and McKinley was in a wain and gave his guest a greeting. After a few words of general conversation, the two presidents retired to a couch in one corner of the room for a quiet and private consultation. It was said that this talk was purely unofficial and personal. Then the party was escorted down stairs and returned to the hotel.

Washington, Jan. 27.—The senate committee on post offices and post roads Wednesday had under considera-

tion the advisability of establishing the system of postal savings bank in the United States. The discussion was general, and the only conclusion arrived at was that Senator Mason and Mr. Butler should prepare a bill which could be used as a basis for future deliberations. This was done, because in the fact there were a large number of measures before the committee, all looking to the same end. It is intended that the bill will be prepared by Messrs. Mason and Butler, and they will submit it to the committee, and they were requested to have it in shape to be taken up at the next meeting to be held a week hence.

Washington, Jan. 27.—Stretches of legislation in this session was killed by the house committee on territories reflecting the Arizona, New Mexico and Oklahoma bills by a vote of eight to three. The first two were rejected on the grounds that they were not sufficiently to come to the point. Then the Oklahoma bill was taken up and beaten by the same vote. There was no discussion, as it was understood at the last meeting that the vote was to be taken Wednesday without further debate.

Mr. Chamber (N. H.) secured the adoption of a resolution calling upon the attorney general for a report as to whether there have been any violation of the constitution in the manner by the exclusion from service on juries in the United States courts of duly qualified citizens on account of color.

Without any preliminary business the committee on post offices and post roads voted to adjourn and recessed consideration of the Indian appropriation bill. The pending amendment was to strike off the appropriation for the Carlisle Indian school.

The President Wednesday sent the following nominations to the Senate: Richard C. Parsons, Jr., of Ohio, to be second secretary of the embassy at Bern; Alexander L. Collier, of Tennessee, to be attorney for the middle district of Tennessee; Lieut. (junior grade) J. G. Doyle to be a lieutenant-grade W. T. Helms, of New Jersey, to be a chaplain in the navy.

EARTHQUAKE SHOCKS.

Houses in Helena, Ark., Shaken to Their Foundations.

HELENA, Ark., Jan. 26.—At 7:50 a. m. yesterday the earth in this city was startled by a severe earthquake. Houses were shaken to their foundations and a succession of noises heard that sounded like immense explosions. The garrison of the Presbyterians church at Fayetteville rushed out of the church expecting the walls to tumble down upon them. There were three distinct shocks within quick succession the first being the severest and the three occurring less than a second apart. They were followed by a trembling or shaking motion, and not by the usual swaying and waving motion. The messages from country points indicate that the shock was felt at many places.

FLOTSAM—JETSAM—LIGAN!

NEW NOTES FROM NATURE'S GREAT HIGHWAY.

The Lizzie Bay will pass down tonight from Pomeroy.

A barge loaded with fireclay was sunk at Quincy Tuesday night during the high wind.

The high winds Tuesday night not only delayed the packets, but washed the banks considerably.

The handsome Queen City will be the next Pittsburgh boat down, passing this city tomorrow evening.

The Keystone State with a fine trip down last night from Pittsburgh and will return tonight.

The Henry M. Stanley passed down last night from Pomeroy, and tonight she will pass up for Charleston and way points.

The Iron Age will leave Pittsburgh tomorrow with a large tow of model barges loaded with steel rails and manufactured iron for the South.

There are large regular packets in the Ohio and Kanawha river trade. A few days ago it was thought that there was little in it for one boat.

The little steamer Ed. C. Kunkel sank at Pt. Pleasant Sunday morning during the heavy wind. The craft was not as valuable as the Queen City or Bonanza, and it will not run far into the dollars.

It is estimated that Pittsburgh coal operators have lost about \$67,000 in sunken coal boats during the past year. Exactly forty-one boats and five barges went down. W. H. Brown's Sons and C. J. Butt & Co. were the heaviest losers.

The towboat Ark, which had not turned her wheel for fourteen months, left Pittsburg Tuesday with twelve pieces loaded with coal. Yesterday morning while attempting to pass under a bridge the current threw the front end of the tow against a pier and \$75,000 worth of coal and boats went down in the wreck.

After running a stage of 18 at this time, the Ark, which had not turned her wheel for four days, fell over this morning at 8 o'clock the sewage showed 40, a fall of 4 inches. This will be welcome news to every one who has any interests near the big stream. The Ohio and tributaries above are falling and the present cold snap will make the decline very rapid.

The annual report of Supervising Inspector of the Seven or Cincinnati District contains many things of interest to steamboat men. The report has not yet been made public, but has been formally handed to the Supervising Inspector. Captain Chancellor, in making a summary of his report, uses the following figures: The number of steamboats registered in the Cincinnati District was 65; in the Gallipolis District, 55; Wheeling, 46; Pittsburgh, 13; making a total of 355. The tonnage of the steamers of the four districts is 15,927—7,000, 5,200, 25,000, and 36,983 respectively. In the ten district 26 steamers were built during the year and 23 went out of service. The tonnage was almost the same as the previous year. The number of boilers inspected during the year 1897 was 151 at Cincinnati, 148 at Gallipolis, 73 at Wheeling, and 42 at Pittsburgh, making a total of 476. The list of officers of steamers included 166 masters, 791 masters and chief pilots, 704 chief engineers and 364 pilots, 283 first class pilots, 23 second special and second engineers. The total number of officers is, therefore, 2,359 in the district. On account of violation of laws there were 23 cases investigated, 18 licenses suspended, 2 licenses revoked and 6 reported to the District Attorney. Captain Chancellor closes his report by saying: "Too much praise cannot be accorded to the licensed officers for their intelligence and efficient execution of the laws pertaining to the steamboat inspection service." The expenses of the office for the year were \$17,552.45.

The ordinance in Boston against the wearing of hats in theaters is now seriously and uniformly enforced. Every woman is required to take off her millinery.
